- H = 8
- I = 9

**ACROSS**

- 2. A series of underground pipes that carry waste water
- 7. Large, thick mass of ice that moves slowly across the land or ocean
- 9. Water with a high salt content, found in oceans and seas
- 11. Water in vapor form that rises into the air
- 12. Things that can contaminate or dirty our water and environment
- 14. The four stages through which water passes into the atmosphere as water vapor, precipitates to earth in liquid or solid form, and returns to the atmosphere through evaporation

**DOWN**

- 1. A long period of time with very little rainfall
- 3. Water mixed in with waste and other contaminated water
- 4. Polluted water from streets and parking lots that runs into storm drains
- 5. Water that can be used for cooking, cleaning and drinking
- 6. Using water and other natural resources carefully
- 8. Water that is found under the surface of the Earth
- 10. A unit of measurement
- 13. A gas in the air we need to breathe to stay alive
- 15. Water in a solid, hard and cold form
